ZBOIT AI 7 Figure Business Model

ZBot AI 4-Step 7-Figure Income Program—a strategic roadmap designed to harness the explosive growth of AI agents and position you at the forefront of this technological revolution.

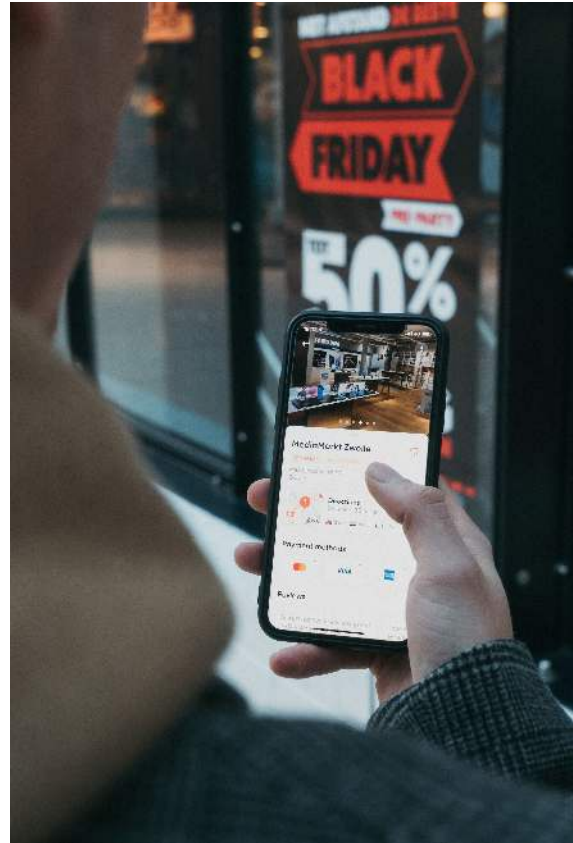

Step 1: Niche Down to Blow Up

In the rapidly expanding AI landscape, specialization is key. By focusing on creating AI agents tailored to replace human sales interactions, you tap into a market poised for exponential growth.

- Market Projection: The global AI agents market is expected to surge from \$7.84 billion in 2025 to \$52.62 billion by 2030, reflecting a CAGR of 46.3%. [Yahoo](#)

[Finance+6MarketsandMarkets+6MarketsandMarkets+6](#)

- Economic Impact: AI technologies could contribute up to \$15.7 trillion to the global economy by 2030, underscoring the transformative potential of AI agents. [PwC](#)

By narrowing your focus, you not only position yourself as an expert but also capitalize on the most profitable segments of the AI industry.

 Step 2: Offer a 7-Day Free Trial

ZBOIT AI 7 Figure Business Model

Lowering the barrier to entry is crucial for customer acquisition. By providing a 7-day free trial of ZBot AI, you allow potential clients to experience firsthand the benefits of AI-driven solutions. Our Platform software code produced over 10 Million dollars in revenue for the following companies.

- Proven Success: Companies like Danube Properties (valued at \$2.9 billion), RE/MAX (market cap of \$248.26 million), and Century 21 (with over 14,250 offices globally) have leveraged AI platforms to generate significant revenue.
- Market Validation: The AI for Sales and Marketing market is projected to grow from \$57.99 billion in 2025 to \$240.58 billion by 2030, highlighting the increasing adoption of AI in customer acquisition strategies.

GlobeNewswire

Offering a free trial not only showcases the value of your services but also builds trust and fosters long-term client relationships. Your customers know and trust these custom brands using the same software platform, now for you to promote under the Zbot AI brand to give away on a 7-day Free trail.

Step 3: Monetize with Tiered Services

Implement a straightforward pricing model to cater to varying client needs:

- ZBot AI Basic: \$197/month
- ZBot AI Premium: \$397/month (includes advanced marketing data)

This tiered approach ensures accessibility while maximizing revenue potential.

Step 4: Build Your Evergreen Sales Machine

ZBOIT AI 7 Figure Business Model

The final step involves creating a sustainable, automated sales system that continually generates income:

- Automation: Utilize AI agents to handle routine sales tasks, freeing up your time for strategic initiatives.
- Scalability: As AI adoption grows, your system can accommodate increasing demand without proportional increases in effort or resources.
- Continuous Improvement: Regularly update and refine your AI agents to adapt to market changes and client feedback.

By establishing an evergreen sales machine, you ensure long-term profitability and resilience in a dynamic market.

What is in it for YOU?

Income Potential Using Zbot AI agent calling, emailing, Posting on WhatsApp,IVR b2b calling, voicemail calling message services, real time Zbot AI connect instant voice all services

Come with 7 days free trial and \$1000 dollars' worth of Cryptocurrency based on first months activation!

Activate 10 clients a month earning up to:

(10) Zbot AI Basic: \$197/month = \$394. 00 a month in residual x 12 months = \$4,728

ZBOIT AI 7 Figure Business Model

(10) Zbot AI Premium: \$397/month=\$794.00 a month in residual x 12 months =\$9,528

Or your Zsuite team duplicates in your uni-level down 10 levels which pays

60 % to you as the Zsuite brand partner?

What if your team sold 100,000 activations in a years at the \$197 level that would equal

\$ 19,700,000 in revenue with 60% being paid out in a new Trillion-dollar industry!

WHAT IS IN IT FOR ME?

CAN I DO THIS?

IS IT WORTH YOUR TIME?

CAN YOU GIVE AWAY A FREE 7 DAY TRAIL DAILY FOR WEALTH?

By 2030, AI is projected to replace a significant number of jobs globally, with estimates ranging from 92 million to 300 million. The World Economic Forum predicts that AI could create 170 million new jobs while eliminating 92 million, resulting in a net increase of 78 million jobs. Goldman Sachs estimates that 300 million jobs could be affected by AI, potentially displacing 18% of the global workforce. McKinsey & Company suggests that between 400 million and 800 million jobs could be displaced by automation globally, with 14% of the global workforce potentially needing to change their occupations
